4

Import & run Simple Audit
With 1-click, you create a credit analysis report that wows the client and shows your value. It's your greatest sales tool ever.

5

Convert to client, add credit card
Complete the client's profile, add credit card, change status to "client" and save (to send portal login details to the client).

6

New client onboarding
Client logs in, signs agreement, watches video and uploads pictures of drivers license and utility bill.

7

Review & tag pending report
CRC has analyzed the negative items. With your client, choose a "reason" and "instruction" for each. Congratulations, you've just planned the entire lifecycle of this client!

8

Run the Dispute Wizard 3
Add up to 5 items to dispute letters. Print and send to the bureaus with client's photo ID and utility bill. Wait 30 days for a response. Repeat (with up to 5 new items) each month.

9

Lather, rinse & repeat
If a bureau responds that an item is "verified," challenge with a new letter. Items are often removed, client sees results, continues to pay your monthly fee and tells friends.
